Vivekanand Sr. Sec School, (CBSE)   **Sirsa, Haryana**
Senior examination year of completion (2018)   **Percentage: 72%**

PROFILE SUMMARY

Targeting **Web Developer** roles with an organization of high repute with a scope of improving knowledge and further career growth.

- FULL stack **(MongoDB, JavaScript, HTML, CSS)** with a strong background in building scalable web applications
- Demonstrated ability to manage and deliver projects **efficiently**, from initial planning and design to final deployment and maintenance.
- Committed to **staying updated** with the **latest industry** trends and technologies, continuously enhancing skills to provide innovative solutions

PROJECTS

Beyond Homes: smart rental app - (link)   **Jan 2024 – feb 2024**
Tools: React, MongoDB, TailwindCSS, Next.js

A comprehensive rental application designed to revolutionize short-term property rentals, enabling users to discover, book, and manage properties seamlessly.

Responsibilities:
- Developed the front-end using React and Next.js, creating a dynamic, responsive, and intuitive user interface.
- Implemented user authentication and authorization with NextAuth, ensuring secure access for both hosts and guests.
- Managed the backend with Node.js, MongoDB, and Prisma, efficiently handling data storage, retrieval, and user management.
- Styled the application with Tailwind CSS, ensuring a modern and visually appealing design.

A Personal portfolio   **July 2024**
Tools: JavaScript, Threejs, TailwindCss

Developed a personal portfolio website to showcase projects, skills, and professional background, offering an engaging and interactive user experience

Responsibilities:
- Developed a responsive and visually appealing user interface using HTML and Tailwind CSS.
- Utilized Three.js and GSAP to create dynamic 3D animations and smooth transitions.
- Added a toggle feature for light and dark mode to enhance usability.
- Enhanced user engagement through the use of advanced animations and interactive elements.

ACADEMIC ACHEIVEMENTS

- Earned a certification in Web Development, demonstrating proficiency in HTML5, CSS, JAVASCRIPT technologies and project management.
- Earned a certification in Python Programming, demonstrating proficiency in Python syntax, data structures, algorithms, and software development practices.
